

CREDIT CARD

Credit Card provides an efficient, logical, and user friendly way to accept credit card payments from your customers. It is fully integrated in Dynamics NAV and fully PCI compliant. Our credit card solution does not store the actual credit card information in Dynamics NAV, only tokenized information is stored to increase the security of your customers' credit card information.

How does it work?

You can define an infinite number of credit cards for each customer. These credit cards can automatically be authorized at the time of releasing an order to always ensure that the credit card can be charged at the time of shipping and invoicing the order. You can also provide a payment portal for your customers, which can be included on every invoice to allow any of your customers to pay an invoice conveniently by credit card, instead of giving you the credit card information at the time of placing the order.

- Low Processing fees through PCI 3 compliance
- Easy setup
- Fully integrated
- Split payments over multiple cards
- Easily process refunds or void charges
- Credit Card Authorization at release of order
- Payment Service to include on every invoice
- Automatic payment application

How to buy?

Credit Card is available from your Certified Dynamics NAV partner. Need help? Let us contact your partner on your behalf.

About NAV-X LLC

NAV-X, with its roots deep in the rich history of Microsoft Dynamics NAV in the North American market, is a publisher of functionality commonly required by distribution and manufacturing business, but unavailable in native NAV. Since 1996, our team has been developing this functionality and built a portfolio of Best Practice solutions. These solutions provide our clients with reliable and repeatable competitive advantages.

In 2012, NAV-X became a certified embed partner with Microsoft and received the "CfMD" (Certified for Microsoft Dynamics) product certification on our complete suite and a Gold ERP Competency. This suite contains over 10,000 hours of integrated functionality that showcased solutions utilized by over 700 companies.

As our clients know, we take great pride in earning their respect and business on a daily basis. We strive to exceed our customer's expectations. In 2015, we became the first partner in North America to successfully migrate our products into the new Dynamics 365 for Financials extensions protocol. In 2016, we became the first US Dynamics Partner to achieve Cloud Services Provider tier 1 status and achieved our Gold Cloud Competency with Microsoft.

Our Customer network allows us to define and refine the next generation of products and help helped us create the next 20 enhancements that are in our product development pipeline.

Our solutions are available to Customers on Dynamics 365 for Financials, or through your Dynamics NAV Partner.
